PROFESSIONAL SUMMARY

Results-driven Full-Stack Software Engineer and Founding Engineer specializing in building and maintaining scalable SaaS products with Next.js, TypeScript, FastAPI, and Python. Successfully improved frontend performance by 35%, expanded backend capabilities, and delivered robust enterprise applications for diverse clients.

CORE TECHNICAL SKILLS

Languages: TypeScript, Python, JavaScript, SQL, HTML, CSS

Frontend: React, Next.js, Tailwind CSS, React Query, Zustand, Context API

Backend: FastAPI, RESTful APIs, PostgreSQL, Redis, Tortoise ORM, SQLAlchemy

Cloud Platforms: GCP, Vercel, Render

DevOps & Tools: Docker, Git, GitHub, pytest, Google Analytics

Methodologies: Agile Development, Full-Stack Development

PROFESSIONAL EXPERIENCE

Nuve Platform

Chicago, IL

Founding Software Engineer

Jul 2021 – Dec 2024

- Led frontend development and maintenance of the company's SaaS web platform using Next.js, TypeScript, and Tailwind CSS, delivering seamless digital experiences to 7 enterprise clients.
- Automated SAP tasks, achieving a 95% reduction in SAP system setup times and enabling new instances to spin up in as little as 10 minutes.
- Boosted application performance and responsiveness by 35% through strategic Zustand integration for state management, significantly reducing unnecessary re-renders.
- Designed and implemented scalable asynchronous FastAPI backends with Tortoise ORM and PostgreSQL, co-developing API routes and managing database migrations.
- Streamlined infrastructure management and instance creation by integrating cloud automation solutions using AWS, Azure, and GCP APIs.
- Translated Figma designs into a responsive, production-ready marketing site deployed on Vercel, ensuring optimal performance and cross-device compatibility.
- Enhanced analytics tracking by integrating Google Analytics and PostHog, providing data-driven insights for continuous platform improvements and user behavior analysis.

10xCoding

Chicago, IL

Application Developer

Feb 2019 – Jun 2021

- Engineered and deployed 10+ enterprise-grade SAP Cloud Platform applications (JavaScript, SAPUI5, OData), including custom reporting tools and a B2B self-service portal.
- Implemented advanced CRUD operations for sales documents, integrating custom search, email functionalities, and credit card processing, enhancing business efficiency.
- Optimized OData data transfers from SAP ECC systems, collaborating with backend teams to significantly enhance API response times and reduce latency by 50%.
- Architected and independently built a comprehensive internal time-tracking system (PTO, sick leave, approval workflows, expense reimbursement with image uploads) leveraging SAP HANA and SAPUI5.

10xCoding

Chicago, IL

Application Developer Intern

Jun 2018 – Dec 2018

- Developed a transaction code lookup tool as a Fiori application on SAP Cloud Platform, reducing transaction search time from 10 seconds to 3 seconds.

ADDITIONAL PROJECTS

Minibunn Planner

minibunnplanner.com

Mar 2025 – Present

- Independently designed, built, and launched a full-stack SaaS productivity web application (Typescript, Next.js, Python, FastAPI, PostgreSQL, Firebase Auth, Stripe) for task tracking and journaling. Successfully implemented 14-day trials and subscription billing, deploying on Vercel and Render.

Minimal Pricing App

minimalpricing.com

Feb 2025

- Developed a frontend-only contract pricing platform featuring dynamic cost calculations and PDF generation. Leveraged Session Storage for efficient temporary data management, ensuring a smooth user experience.

EDUCATION

Illinois Institute of Technology

M.S. in Information Technology & Management

Chicago, IL

Jan 2018 – Dec 2018

University of Illinois at Urbana Champaign

B.S. in Mathematics & Computer Science

Champaign, IL

Aug 2013 – May 2017

CERTIFICATIONS

- Supervised Machine Learning: Regression and Classification
- Advanced Learning Algorithms
