PROFESSIONAL SUMMARY

Software Engineer with experience in building and optimizing scalable web applications using React, Next.js, and FastAPI. Skilled in state management, performance optimization, and DevOps tools for building efficient, maintainable applications.

CORE TECHNICAL SKILLS

- **Programming Languages:** TypeScript, Python
- **Frontend:** Next.js, React, Zustand, Tailwind CSS, Vercel
- **Backend:** FastAPI, PostgreSQL, Redis, RESTful APIs, WebSocket
- **DevOps:** Docker, CI/CD

PROFESSIONAL EXPERIENCE

Software Engineer

Nuve, Remote

Jul 2021 – Dec 2024

- Collaborated with a team to develop Nuve's web platform using Next.js, React, Tailwind CSS, and TypeScript, ensuring high performance and smooth deployments via Vercel.
- Optimized frontend state management with Zustand, reducing unnecessary re-renders and enhancing user interactions.
- Contributed to building an asynchronous FastAPI backend with Tortoise ORM and PostgreSQL, supporting scalable and efficient data operations.
- Implemented integrations with AWS, Azure, and GCP APIs, helping automate cloud infrastructure and streamline server provisioning.
- Enhanced analytics tracking by integrating Google Analytics & PostHog, supporting data-driven improvements for the platform.

Application Developer

10xCoding, Chicago, IL

Feb 2019 – Jun 2021

- Developed and deployed SAP Cloud Platform applications using JavaScript, SAPUI5, and OData, collaborating with backend teams on enterprise solutions.
- Independently designed and built an internal time-tracking system with PTO tracking, approval workflows, and expense reimbursement, improving payroll accuracy and reducing manual admin tasks.
- Optimized OData data transfers in SAP ECC, improving API response times and reducing system bottlenecks.

Application Developer Intern

10xCoding, Chicago, IL

Jun 2018 – Dec 2018

- Built a T-Code lookup Fiori app using SAPUI5, JavaScript, OData, ABAP, and SAP Cloud Platform.

ADDITIONAL PROJECTS

Gender Reveal Puzzle

Ongoing, Started Feb 2025

- Developing a real-time, interactive web app using Next.js, FastAPI, WebSockets, and Redis, where guests collaborate to assemble a hidden gender reveal image.

- Implemented QR code-based room joining and state persistence using Redis and Zustand, allowing users to rejoin a session if disconnected.

Minimal Pricing

Feb 2025

minimapricing.com

- Developed a frontend-only contract pricing platform with dynamic cost calculations and PDF generation.
- Utilized Session Storage for temporary data storage, ensuring a smooth user experience.

EDUCATION

M.S. in IT & Management

2018

Illinois Institute of Technology, Chicago, IL

B.S. in Mathematics & Computer Science

2013 - 2017

University of Illinois Urbana-Champaign, Champaign, IL
